

Muhammad Nadeem

Frontend Engineer

About me

I am a Frontend Engineer with experience in creating robust user-friendly web applications, I've honed my skills in frontend technologies, specializing in JavaScript, TypeScript, React.js, and Next.js.

Beyond coding, I've spent over 2 years as a dedicated Discord Moderator and Community Manager, shaping vibrant and inclusive online communities. I believe in fostering positive interactions and creating safe spaces where members can freely share their passions and knowledge.
